Vimy 1936: Crossroads of Memory

Vimy 1936: Crossroads of Memory is a documentary film in development, exploring the creation and unveiling of the Canadian National Memorial at Vimy Ridge, the values it embodies, and the uncertain world of 1936 in which it was dedicated.

A work-in-progress excerpt will be presented with the completed film anticipated in April, the 110th anniversary of the 1917 battle. Join Dr. Geoff Bird of Royal Roads University as he presents on Vimy and its significance for Canada today.
